# WOULD YOU PREFER YOUR TOAST WITH ARTIFICIAL CHEMICAL PRESERVATIVE?

## OR WITHOUT?

Calcium Propionate is a preservative that's very popular with other major bread brands. It's as artificial today as it's always been.

Hovis use a special type of wheat flour instead, giving you all the great tasting freshness you'd expect, just more naturally.

**HOVIS. AS GOOD TODAY AS IT'S ALWAYS BEEN.**

# Tims Dairy

... good food from  
the heart of the Chilterns

Established as a family business in central London in the 1940s, Tims Dairy remains a privately owned company specialising in high quality yogurt and cultured cream products. The business was started by Euripides Nicolaou who was then joined by Michael Timotheou, who began by making homemade natural yogurts and desserts which they supplied to local ethnic cafes, continental delicatessens and restaurants.

Our forefathers' passion for taste, and increased demand, led to steady growth, with an initial move to North London.

This was followed in 1996 by relocation to the current purpose-designed dairy in Chalfont St Peter, Buckinghamshire. The family tradition continues and Tims Dairy has, for more than 30 years, been managed by brothers Chris and Peter Timotheou.

With over 60 years experience we have the necessary knowledge and capability needed to develop new dairy product ideas and to drive new product innovation. Our dedicated development team and the flexibility in our production methods allow us to tailor-make a wide range of cultured dairy products to meet the unique needs of every customer. We take great care in selecting premium ingredients and use only fresh British milk. Our products are created for great taste, good health and a truly pleasurable eating experience.
